Our current total for 2008 is 1476. This is approximately where we should be at this time of year. All swimmers have now been sent invoices. Swimmers registrations must be processed by the end of January to get the next issue of the magazine.

Newsletter: I am working on the March/April issue of the newsletter. The deadline for submissions is today. It is very important that we include any events in May and early June in this issue, due to the continuing late delivery of USMS Swimmer.

Top Ten & Records: I have started to use a new program for processing Top Ten. The advantage is that it does more checking vs. the registration database than the program I was previously using. The disadvantage is that I don't yet have a publication quality draft for review before I submit the data.

New Registration System: Online registration will not be available for swimmers to renew in time to get their March/April USMS Swimmer magazine.

Library: Lending has picked up considerably. We need some more basic DVDs, since that is the most common request.
