

SPMA Top Ten Recorder February 2011 Report

The 2010 Short Course Meter Top Ten for SPMA was submitted on time to National. The Preliminary USMS Top Ten is now posted on the USMS website. If anyone has any corrections please let me know.

The LVM meet of 1/22 had no National Records. I'm waiting for meet paperwork.

The Rose Bowl meet of 2/5 had 2 National Records. I'm waiting for the paperwork for those records so they can be submitted.

Robert Mitchell has included new comprehensive information about each meet which answers many of my questions before having to ask. Thanks!

We now have the paperwork for the missing Mixed World Record relay from LVM from last July's LCM meet, and I've started working on a letter requesting the World Record be accepted. We will need proof of birth from the men on that relay: Sam Franklin and Bryan Jennings. The application, once filled out, will need the referee approval.
